Friday, August 27, 2010

9:00 am - 12:00 pm

The Farley Center at Williamsburg Place

Guest Speaker:
Michael Walsh, MS, CAP
Director of Admissions

3 CEU are available
No Charge

**Michael Walsh, MS CAP
Director of Admissions
Hanley Center**

Learning Objectives:

At the conclusion of this workshop participants will be able to:

1. Review a complex Boomer addiction profile and challenges for health care and treatment.
2. Explore how men's issues in midlife and beyond affect risk and protector factors and how related therapies can engage the individual in treatment.
3. Review the inter-relationship of barriers to men's recovery and how new research is identifying effective treatment interventions and relapse prevention.
